

Awards BEST PRODUCT Enter now and take your chance!

Dear exhibitors,

As in previous years, **LogiMAT** will again host the presentation of the BEST PRODUCT Award. This is the 20th time the award will be presented at the fair, and maybe this year your product will be the winner – provided you enter, of course!

What is the BEST PRODUCT Award?

The award is presented to **innovative products that make a proven contribution to increased efficiency, cost-optimisation and rationalisation**. The winners of this coveted award are selected by an independent, seven-strong jury from business, science and the media.

The award is presented in the categories:

- Software, Communication, IT
- Order picking, Conveying, Lifting, Storage technology
- Identification, Packaging and Loading technology, Load securing

How can your company get involved?

Register your prize-worthy product in one of the categories and send us your application by email by **February 17, 2023** at the latest.

The prize-winners will receive their awards during the opening ceremony on the first day of the fair, Tuesday, April 25, 2023 from 9:30 a.m. on.

We would be delighted to receive your entry for the BEST PRODUCT Award. Good luck!

With best regards
